TOPPER

POPIS PRODUKTU (DLOUHÝ)

A universal user-friendly graffiti remover for almost all non-porous surfaces. Quickly and thoroughly removes virtually all graffiti.

DOPORUČENÉ POUŽITÍ

This cleaning agent removes almost all graffiti and daubing on thick non-porous surfaces. Safe on almost all surfaces, such as thermo-hardened plastics, coated surfaces, trapezoidal sheets with plastisol, Trespa, Lexane, and Plexiglas, and all surfaces with an anti-graffiti coating.

TEORETICKÁ SPOTŘEBA

4 – 15 m²/l

PRAKTICKÁ SPOTŘEBA

The actual efficiency is heavily dependent on the surface and type of graffiti.

NÁVOD K POUŽITÍ

Apply Topper with a brush, sponge, or sprayer on the surface to be treated.

Let it soak in for a few minutes depending on the weather conditions, surface, and graffiti.

Once the graffiti is dissolved, remove it with a cloth or sponge.

Wipe with a non-woven white nylon pad to improve the effectiveness.

If possible, rinse off the surface with plenty of water.

When cleaning using graffiti removers, the stain will usually increase in size on most surfaces.

To prevent this from happening, we recommend that you first treat the surface with Rodex (1:10). This will prevent the dissolved graffiti from setting again.

Always test on a part of the surface to be treated to check whether the product is compatible with the surface.

PODMÍNKY POUŽITÍ

Minimum ambient temperature : 5 °C

Maximum relative humidity : 100%

Minimum surface temperature : 5 °C
